

# Fluency for Coding

## FLUENCY AUDIT TOOL

### INTRODUCTION

- Does your facility currently have a streamlined, HIPAA compliant audit workflow?
- Has your facility been able to eliminate the manual diagnosis and procedure code keying process that is required by auditors?
- Does your facility currently have *real-time* management viewing capabilities on the status of all audit types?
- Is your facility able to provide robust reporting that includes accuracy scores and financial impact?

If you answered 'no' to any of these questions, then you will want to see a demonstration of how Fluency Audit Tool will exceed your expectations.

Introducing Fluency Audit Tool, created by auditors for auditors.  
A new innovative solution for your auditing workflow needs.

- Streamlined, HIPAA compliant audit workflow, compatible with any encoder and major EHRs
- Provides HIM-level reporting including automated accuracy scores with built-in financial impact calculations
- Capability of being a stand-alone solution or being integrated with the Fluency for Coding platform
- Auditing services are available to your facility on an ongoing basis

## BENEFITS:

### HIM, Compliance, and Revenue Cycle Leadership

- Built-in workflow increases efficiency, improves quality, and provides reporting with financial impact analysis
- Reporting capabilities at facility, patient type, team and/or coder level
- Blind audit features
- Ability to measure and manage coding and auditing workforce effectively and efficiently

### Auditors

- True random samples of accounts for audit selection
- Efficient messaging built in to provide coder education through feedback
- Real time audit manager viewing capabilities to see status of audits
- Automated accuracy scores with built-in financial impact calculations
- Decreased data entry

### Coders

- Overall efficient process to review an audit within the application
- Complete feedback loop between auditor and coder within application
- Individualized reporting

## About M\*Modal

Now a part of 3M, M\*Modal is a leading healthcare technology provider of advanced clinical documentation solutions, enabling hospitals and physicians to enrich the content of patient electronic health records (EHR) for improved healthcare and comprehensive billing integrity. M\*Modal also provides advanced cloud-based Speech Understanding™ technology and data analytics that enable physicians and clinicians to include the context of their patient narratives into electronic health records in a single step, further enhancing their productivity and the cost-saving efficiency and quality of patient care at the point of care.
